Dear Hiring Manager,

this is to express my interest in your posting for a Software Implementation Engineer.

I love good design and building state-of-the art and easy to use apps is always my main goal. I enrolled into Thinkful's intense full-stack web development course to learn about best industry practices and modern tooling.

I pair programmed with my mentor several hours every week building full-stack apps in Node.js, React and Redux.

I can be reached any time via my cell phone, 415-699-5309 or via email at lily.sf888@gmail.com.

Thank you for your consideration and I look forward to talking to you about this opportunity.

Sincerely,

Lily
